The "American Farmer" for August is on our table, filled with valuable information for the Agriculturist. Published by Samuel Sams & Son, Baltimore, Md., at \$1.50 a year, in advance. To Clubs of five or more, \$1.00 each.

On Tuesday evening last, the dwelling house of Mr. CHARLES MILLERSON, on the South Branch, one mile east of Springfield, was struck by lightning; the house sustained but little damage, although fire was discovered shortly after in a wardrobe, the bolt in passing down the chimney, set fire, through a crack, to articles in the wardrobe; when it reached the lower floor it assumed the shape of a ball of fire which rolled out into the room, passing close to, or under the chair in which Mr. Miller son was sitting, and with a loud report exploded, a few feet beyond. All the persons in the room were more or less stunned and their vision was considerably dimmed for a time.

The law expressly states that any one passing an unexpired check is liable to a fine of \$50, any one receiving the same is liable to a similar fine, and any cashier putting on and cancelling a stamp upon a check at his bank for another is guilty of the same violation and subject to the same penalty. This bit of information may be of value to those uninformed upon the subject.

The provision in the road law requiring finger boards at crossings is much neglected. Road surveyors should not think because they know where the roads cross that they can get away with it. It doesn't cost much to put up finger boards. See that it is done.

Messrs. Benjamin Fisher, Sam. Norton, Dave Beans, Byron Bagley, Cash. Evans, Geo. P. Linch & Peter Rhodes, of Wheeling, arrived at Lieut. Parsons' for a two weeks fishing jaunt, on the South Branch on Monday last.

DISASTROUS FIRE IN WEST VIRGINIA.

We learn from the Wheeling Intelligencer that the town of Volcano, in Wood county, was destroyed by fire on the morning of the 4th inst. The fire originated in the store building of Thompson & Barnes. It was discovered about 4 o'clock. The flames spread rapidly, and reaching some oil tanks they caught fire and bursted, the burning oil running through the streets and setting fire to buildings on either side. The following are some of the principal and heaviest losses: Volcano Oil Company, \$10,000, no insurance; W. C. Stiles, Jr., \$18,000, insurance \$3,000; Graham & Smith, \$12,000, insurance \$8,000; Thompson & Barnes, \$3,500, insurance \$2,000; Odd-Fellows Hall, \$1,400, insurance \$1,000; C. & H. Willman, \$5,000, insured. There were 600 barrels of heavy oil burned, 20 stores, the postoffice, railroad depot and telegraph office, the hotel, Walking Beam printing office, nine dwelling houses, the West Virginia Transportation office, Smith's boiler works, one pumping station and several other small buildings. Nearly everything is a total loss. Almost the entire contents of stores and dwellings were consumed, the flames spreading with such lightning-like rapidity, and all the buildings being wooden structures. The fire was undoubtedly the work of an incendiary. There were two attempts made a short time ago to burn the town, and since that time watchmen have been put on at night, and had just gone off duty when the fire was discovered. The total loss will reach \$75,000, and the insurance, as near as can be ascertained, \$43,000.

Seventy prominent citizens of Wheeling have signed an agreement to form an association for the protection of fish and game in West Virginia, and propose to vigorously enforce the laws looking to that end.

AN EYE REMOVED.—With his skill, Dr. W. F. Funderberg, the celebrated Oculist of Cumberland, Md., removed the left eye of Jacob Hauze on Tuesday, at the Dale House. The history of the case, as we have been able to gather it, is as follows: About a year ago Mr. Hauze, while engaged in mining, ruptured the left eye internally by injudicious or excessive lifting; it soon commenced enlarging and to so great an extent as to press upon the nerves and endanger the sight of the remaining eye, rendering the removal of the injured member imperative. The operation was performed with the skill and rapidity only acquired by extensive practice. He will not only retain the sight of his single eye, but there is every reason to believe that it will rapidly improve its functions, now somewhat weakened.—Meyersdale Com.

The advantages in Music are very superior and the charges in all departments low. The twenty-fifth year will open Sept. 3rd.

A SOURCE OF MUCH BODILY EVIL.

—If the habit of body becomes irregular, much evil is inflicted on the system. The stomach becomes dyspeptic, bilious symptoms develop themselves, the circulation is contaminated, and the nerves share in the general disorder. It is of the utmost importance that the bowels should be thoroughly and speedily regulated when they grow derelict. The corrective agent best adapted to this purpose is Hostetter's Stomach Bitters, a wholesome, non-gripping vegetable laxative, worth all the rasping cathartics invented since the time of Paracelsus. People who have been in the habit of using blue pill, calomel, and other drugs and cheap nostrums for constipation, should abandon such hurtful and useless medicines, and substitute for them this pleasant and gentle aperient, which not only produces the purgative effect naturally, but also strengthens while it regulates the bowels, stomach and liver. It moreover cures and prevents intermittent and remittent fevers, gout, rheumatism, debility and urinary troubles.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE.—This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. INMAN, Station D, New York City.

BALTIMORE CATTLE MARKET.

THURSDAY, July 31, 1879.

[Cattle are sold at the figures live weight. Hogs are sold at net weight, that is 20 per cent (generally) off from live weight. Sheep are sold gross, that is live weight, or nothing off.]

BEAR CATTLE.—The market to day was in the beginning somewhat more active than it was last week, and prices at the opening were in some cases higher, but the improvement was generally less by the time the end was reached. The quality was not as good as last week, the top being fewer and not up to last week's offerings, while medium were not as plentiful and common Cattle more numerous. We quote at 2 30/65 12 1/2 per 100 lbs.

MICHIGAN.—Common grades are too plentiful, and good Cows almost wholly absent. We quote at 20/65 \$40 per head. Good Cows are wanted.

Prices this week for Beef Cattle ranged as follows: Best Beever at 5 00/65 12 1/2; that generally rated first quality 4 37/65 00; medium or good fair quality 3 06/65 00—ordinary thin Steers, Oxen and Cows 2 30/65 25; extreme range of prices 2 30/65 12 1/2. Most of the sales were at 2 25 to \$4 25 per 100 lbs. Of the receipts 501 head came from Ohio, 622 from Va., 506 from W. Va., 70 from Maryland, and 49 from Ky.—total receipts for the week 2098 head, against 2657 last week, and 2303 head same time last year. Of the offerings 870 head were taken by Baltimore butchers, 19 sold to Washington city butchers, 281 to country dealers, and 194 head to Eastern speculators—total sales for the week 1361 head, against 1960 last week, and 1567 head same time last year.

SWINE.—Trade has been rather slow this week, scarcely as active as it was last week, and dealers report heavy hogs lower, and harder to sell than heretofore, owing to the decline in the price of lard—the other grades find only fair sale. The quality is scarcely as good as last week, there being some increase in the number of the grassers. We quote at 54/65 cents lb. net for selling at either extreme, with a downward tendency. Arrivals this week 5119 head against 6161 last week, and 6878 head same time last year.

SHEEP AND LAMBS.—Good Sheep have been scarce and so few demanded during the week, and the quality not as good as it was last week—Lambs have been plentiful and dull, the larger part of them, to the number of 2800, having been re-shipped to New York and Philadelphia. There has been an improved demand reported for stock Sheep. We quote fat Sheep at 36/65 cents, few selling at the latter price, and Lambs at 36/65 cents per lb. gross. Stock Sheep—Wethers at 36/65 cents per lb. gross, and Ewes at 26/65 00 per head. Arrivals this week 6270 head, against 5497 last week, and 6743 head same time last year.—Sun.

TUTT'S PILLS.

are especially adapted to such cases, a single dose, effects such a change of feeling as to astonish the sufferer.

TUTT'S PILLS.

are recommended for numerous cases, and are free from any properties that would injure the most delicate organization. They cleanse the system, purify the blood, and regulate the liver. By relieving the congested liver, they cleanse the blood from poisonous humors, and thus impart health and vitality to the body, causing the bowels to act naturally, without which no one can feel well.

A Noted Divine says:
